

## Certificate of Compliance – European Union REACH Regulation EC/1907/2006

pSemi certifies that the product listed below is to the best of our knowledge, compliant with the applicable requirements of the European Union Regulation EC 1907/2006 of the European Parliament Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals.

This pSemi product does not contain the Substances of Very High Concern (SVHC) shown below and listed in Annex IV of the regulation, as measured by weight in the article, pursuant to the European Commission Regulation EC 1907/2006.

**Product:** PE43705

**Description:** UltraCMOS® RF Digital Step Attenuator

### List of Substances of Very High Concern

| Item | Restricted Substance                                                                                                                                                     | EC No                  | CAS No                                                               | MCV Threshold      | Effective Date |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|----------------------------------------------------------------------|--------------------|----------------|
| 1    | 4,4'- Diaminodiphenylmethane (MDA)                                                                                                                                       | 202-974-4              | 101-77-9                                                             | 1000 ppm (0.1% wt) | 10/28/2008     |
| 2    | 5-tert-butyl-2,4,6-trinitro-m-xylene (Musk xylene)                                                                                                                       | 201-329-4              | 81-15-2                                                              | 1000 ppm (0.1% wt) | 10/28/2008     |
| 3    | Alkanes, C10-13, chloro (Short Chain Chlorinated Paraffins)                                                                                                              | 287-476-5              | 85535-84-8                                                           | 1000 ppm (0.1% wt) | 10/28/2008     |
| 4    | Anthracene                                                                                                                                                               | 204-371-1              | 120-12-7                                                             | 1000 ppm (0.1% wt) | 10/28/2008     |
| 5    | Benzyl butyl phthalate (BBP)                                                                                                                                             | 201-622-7              | 85-68-7                                                              | 1000 ppm (0.1% wt) | 10/28/2008     |
| 6    | Bis(tributyltin) oxide (TBTO)                                                                                                                                            | 200-268-0              | 56-35-9                                                              | 1000 ppm (0.1% wt) | 10/28/2008     |
| 7    | Diarsenic pentaoxide                                                                                                                                                     | 215-116-9              | 1303-28-2                                                            | 1000 ppm (0.1% wt) | 10/28/2008     |
| 8    | Diarsenic trioxide                                                                                                                                                       | 215-481-4              | 1327-53-3                                                            | 1000 ppm (0.1% wt) | 10/28/2008     |
| 9    | Dibutyl phthalate (DBP)                                                                                                                                                  | 201-557-4              | 84-74-2                                                              | 1000 ppm (0.1% wt) | 10/28/2008     |
| 10   | Hexabromocyclododecane (HBCDD) and all major diastereoisomers identified:<br>Alpha-hexabromocyclododecane<br>Beta-hexabromocyclododecane<br>Gamma-hexabromocyclododecane | 247-148-4<br>221-695-9 | 25637-99-4<br>3194-55-6<br>134237-50-6<br>134237-51-7<br>134237-52-8 | 1000 ppm (0.1% wt) | 10/28/2008     |
